

Implement Authentication

Project: MERN Stack Employee Management System

STUDENT NAME Bhanu Sharma	ENROLLMENT NUMBER O24MCA112292
COURSE MCA Full Stack Development	UNIVERSITY Chandigarh University
GUIDE / MENTOR Alok Srivastva	ACADEMIC YEAR 2024-2026

Milestone Progress

MILESTONE Implement Authentication	PROGRESS COMPLETE	ACTIONS / STATUS Marked as Complete
--	---	---

Objective

Implement secure user authentication and authorization using JWT tokens and role-based access control.

Work Completed

- Implemented user registration and login with JWT token generation.
- Stored passwords securely using bcrypt hashing.
- Added route protection middleware for private APIs.
- Added admin, department head, and user role handling with department-based permissions.
- Added protected frontend routes and persistent login handling with reload failsafes.

Evidence / Files

server/src/controllers/authController.js
server/src/middleware/auth.js
server/src/utls/generateToken.js
client/src/context/AuthContext.jsx
client/src/App.jsx

Outcome

The authentication milestone is complete. Users can securely log in, access protected routes, and use role-based features.
